

## What is your License Policy for ActiVeImage Protector (AIP) and vmGuardian?

<b>Virtual</b>	AIP Virtual Edition	Only a single license purchase is all that is required for one physical server or virtual environment. There are no restrictions on the types of physical or virtual OS's if they are supported by ActiVeImage Protector Server / Desktop / Linux Edition. This affordable license provides the means to install one copy on one physical machine or host, as well as virtual copies of AIP on an unlimited number of virtual machines regardless of the number of guest operating systems and without the need to purchase additional licenses.
	AIP Virtual Edition Cloud Environment Licence	One license for up to five virtual machines running on an unspecified virtual host in a cloud environment. Virtual machines in Cloud environments may migrate from host to host within that cloud. To offer a more flexible licensing plan, AIP VE Cloud License is offered to use a licensed copy of AIP on virtual machines running in a Cloud environment.
	AIP for Hyper-V Enterprise	Support for Hyper-V host on a Windows Server 2008R2/2012/2012R2. Once license per Microsoft Hyper-V host machine specified as the backup source. No restrictions on the number of virtual OSES. SHR or ReZoom may be used to restore a virtual machine.
	AIP for Hyper-V with SHR	
	vmGuardian	One license per 1 CPU socket on the mother board of the virtual host which shall be specified as backup and restore target. Volume licensing is offered.

<b>Physical</b>	AIP Server Edition	One license for a single physical or virtual operating system (OS) specified as backup / restore target. Depending on the number of licenses you purchase, volume discounts may be available, some restrictions apply.
	AIP Desktop Edition	
	AIP Linux Edition	

<b>IT</b>	AIP IT Pro Edition	One license for one designated IT Support Professional who is allowed to back up and restore an unlimited number of systems for a period of one year. AIP IT Pro lets one IT Support Professional provide maintenance service to multiple clients.
-----------	--------------------	--

<b>Cluster</b>	AIP Cluster Edition	One license for Microsoft Cluster Service (MSCS), Microsoft Failover Clustering (MSFC), everRun MX or EMC AutoStart environment configured on two physical / virtual machines. Installation and operation guide to use the product in MSCS or MSFC clustered environment is provided.
